BRODY MRBM COMPLEX, USSR
FIXED FIELD SITE

25X1A

Launch Area No 1 (TDI name: Brody Launch Site 2) --Type I 50-13-15N 25-05-00E BE No [REDACTED]
Launch Area No 2 (TDI name: Berestechkov Launch Site) -- Type I 50-20-15N 25-05-30E [REDACTED]
Launch Area No 3 (TDI name: Brody Launch Site 1) -- Type IV 50-06-00N 25-12-00E BE [REDACTED]
Brody Fixed Field Site (TDI name: Yazlovchik SSM Fixed Field Launch Position) 50-05-45N 25-02-00E

This report supplements NPIC/R-148/63,1/ which discusses the Brody MRBM Complex (Figure 1), previously consisting of two Type I and one Type IV MRBM launch areas, together with a rail-to-road transfer point.

25X1D The Brody Fixed Field Site is located in a forest 3.7 nautical miles (nm) southwest of Yazlovchik. The site was not present on photography of [REDACTED]. Initial construction, consisting of one clearing and the scarring for another, was first apparent on [REDACTED]. The site appeared complete with four padlike clearings on [REDACTED].

25X1D Brody Launch Areas No 1 and 2 were first observed as completed sites in [REDACTED].

25X1D The hard launch area (Type IV) was seen in a midstage of construction in [REDACTED] and designated as complete on [REDACTED].

Launch Areas No 1 and 2 are located 7.8 nm and 14.5 nm, respectively, north-northeast of the field site and Launch Area No 3 is situated 6.3 nm to the east.

The fixed field site (Figure 2) is situated in a large forest clearing and contains four roughly rectangular clearings interconnected by an irregular road network. Each of the padlike clearings, which average 65 feet in width and between 160 and 190 feet in length, is oriented on an approximate 250 degree azimuth, the same as that of Brody Launch Site No 1. To the south of each padlike clearing is an unidentified object which appears to be connected to it by a probable conduit. No activity was discernible at the site nor was a tent area visible in proximity to the site.

The nearest rail siding is located 4.8 nm to the east-southeast at Brody.
